“Delivering integrated solutions through structured execution.”

Company Overview

## About Us

Horizon Integration is a “solutions provider” company, specializing in design, implementation and trade of building and construction materials in the region.

Horizon Integration combines a deep understanding of building and construction markets with a successful history of upgrading its services and developing internal processes.

The company possesses the human expertise, technical know-how, and operational capability to support small, medium, and large-scale projects, ensuring a positive and effective contribution to projects and communities.

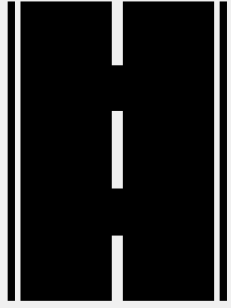

# OUR VISION

Horizon Integration (HIC) Company seeks to be a pioneer in the field of contracting and construction in the region, by providing innovative and sustainable solutions in the design and implementation of architectural facades.

We aim to achieve sustainable excellence in every project, with a focus on quality, innovation and customer satisfaction. We believe that success depends on building strong relationships with our clients and partners, which enhances our ability to achieve common goals.

We aspire to develop a work environment that stimulates creativity and supports the professional development of our team, which contributes to achieving our long-term vision in facades completion.

We are committed to being the first choice for distinguished architectural projects, exceeding our clients' expectations every time.

Smart Construction

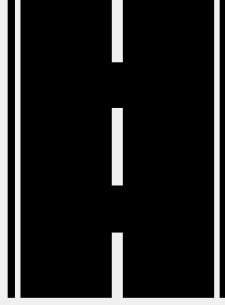

# Innovation & Technology

Horizon Integration adopts practical and proven methods in delivering construction and building solutions.

The company focuses on continuous development of its processes, upgrading its systems, and applying reliable installation practices to ensure efficient execution and consistency across projects.

Our approach emphasizes coordination, execution accuracy, and delivering solutions that meet project requirements while maintaining quality and reliability.

## Integrity

We do the right thing  
even when no one's watching.

---

Conducting all business activities  
with professionalism, transparency,  
and accountability.

## Excellence

Quality is never  
compromised.

---

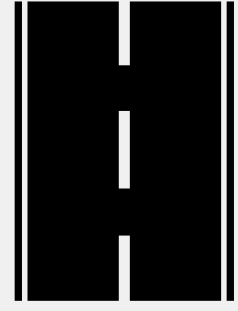

Delivering consistent quality in  
design, implementation, and  
construction support services.

## Safety

Every worker goes home safe.  
Every project respects its surroundings.

---

Applying safe working practices and  
maintaining responsibility toward  
society  
and the working environment.

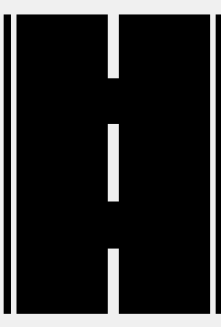

## What We Do & Our Products

We have a noticeable presence in providing services in various fields as an integral part of companies that provide solutions in the field of mechanical installation, design and implementation of building facades for stone, metal ceilings, gypsum board and electrical cable holders in buildings and metal constructions in general.

Horizon Integration provides various metal and construction-related systems including fixing systems, cable trays, brackets, and metal supports used in building and construction projects.

It also contributes to providing building materials in all regions of the Kingdom of Saudi Arabia.

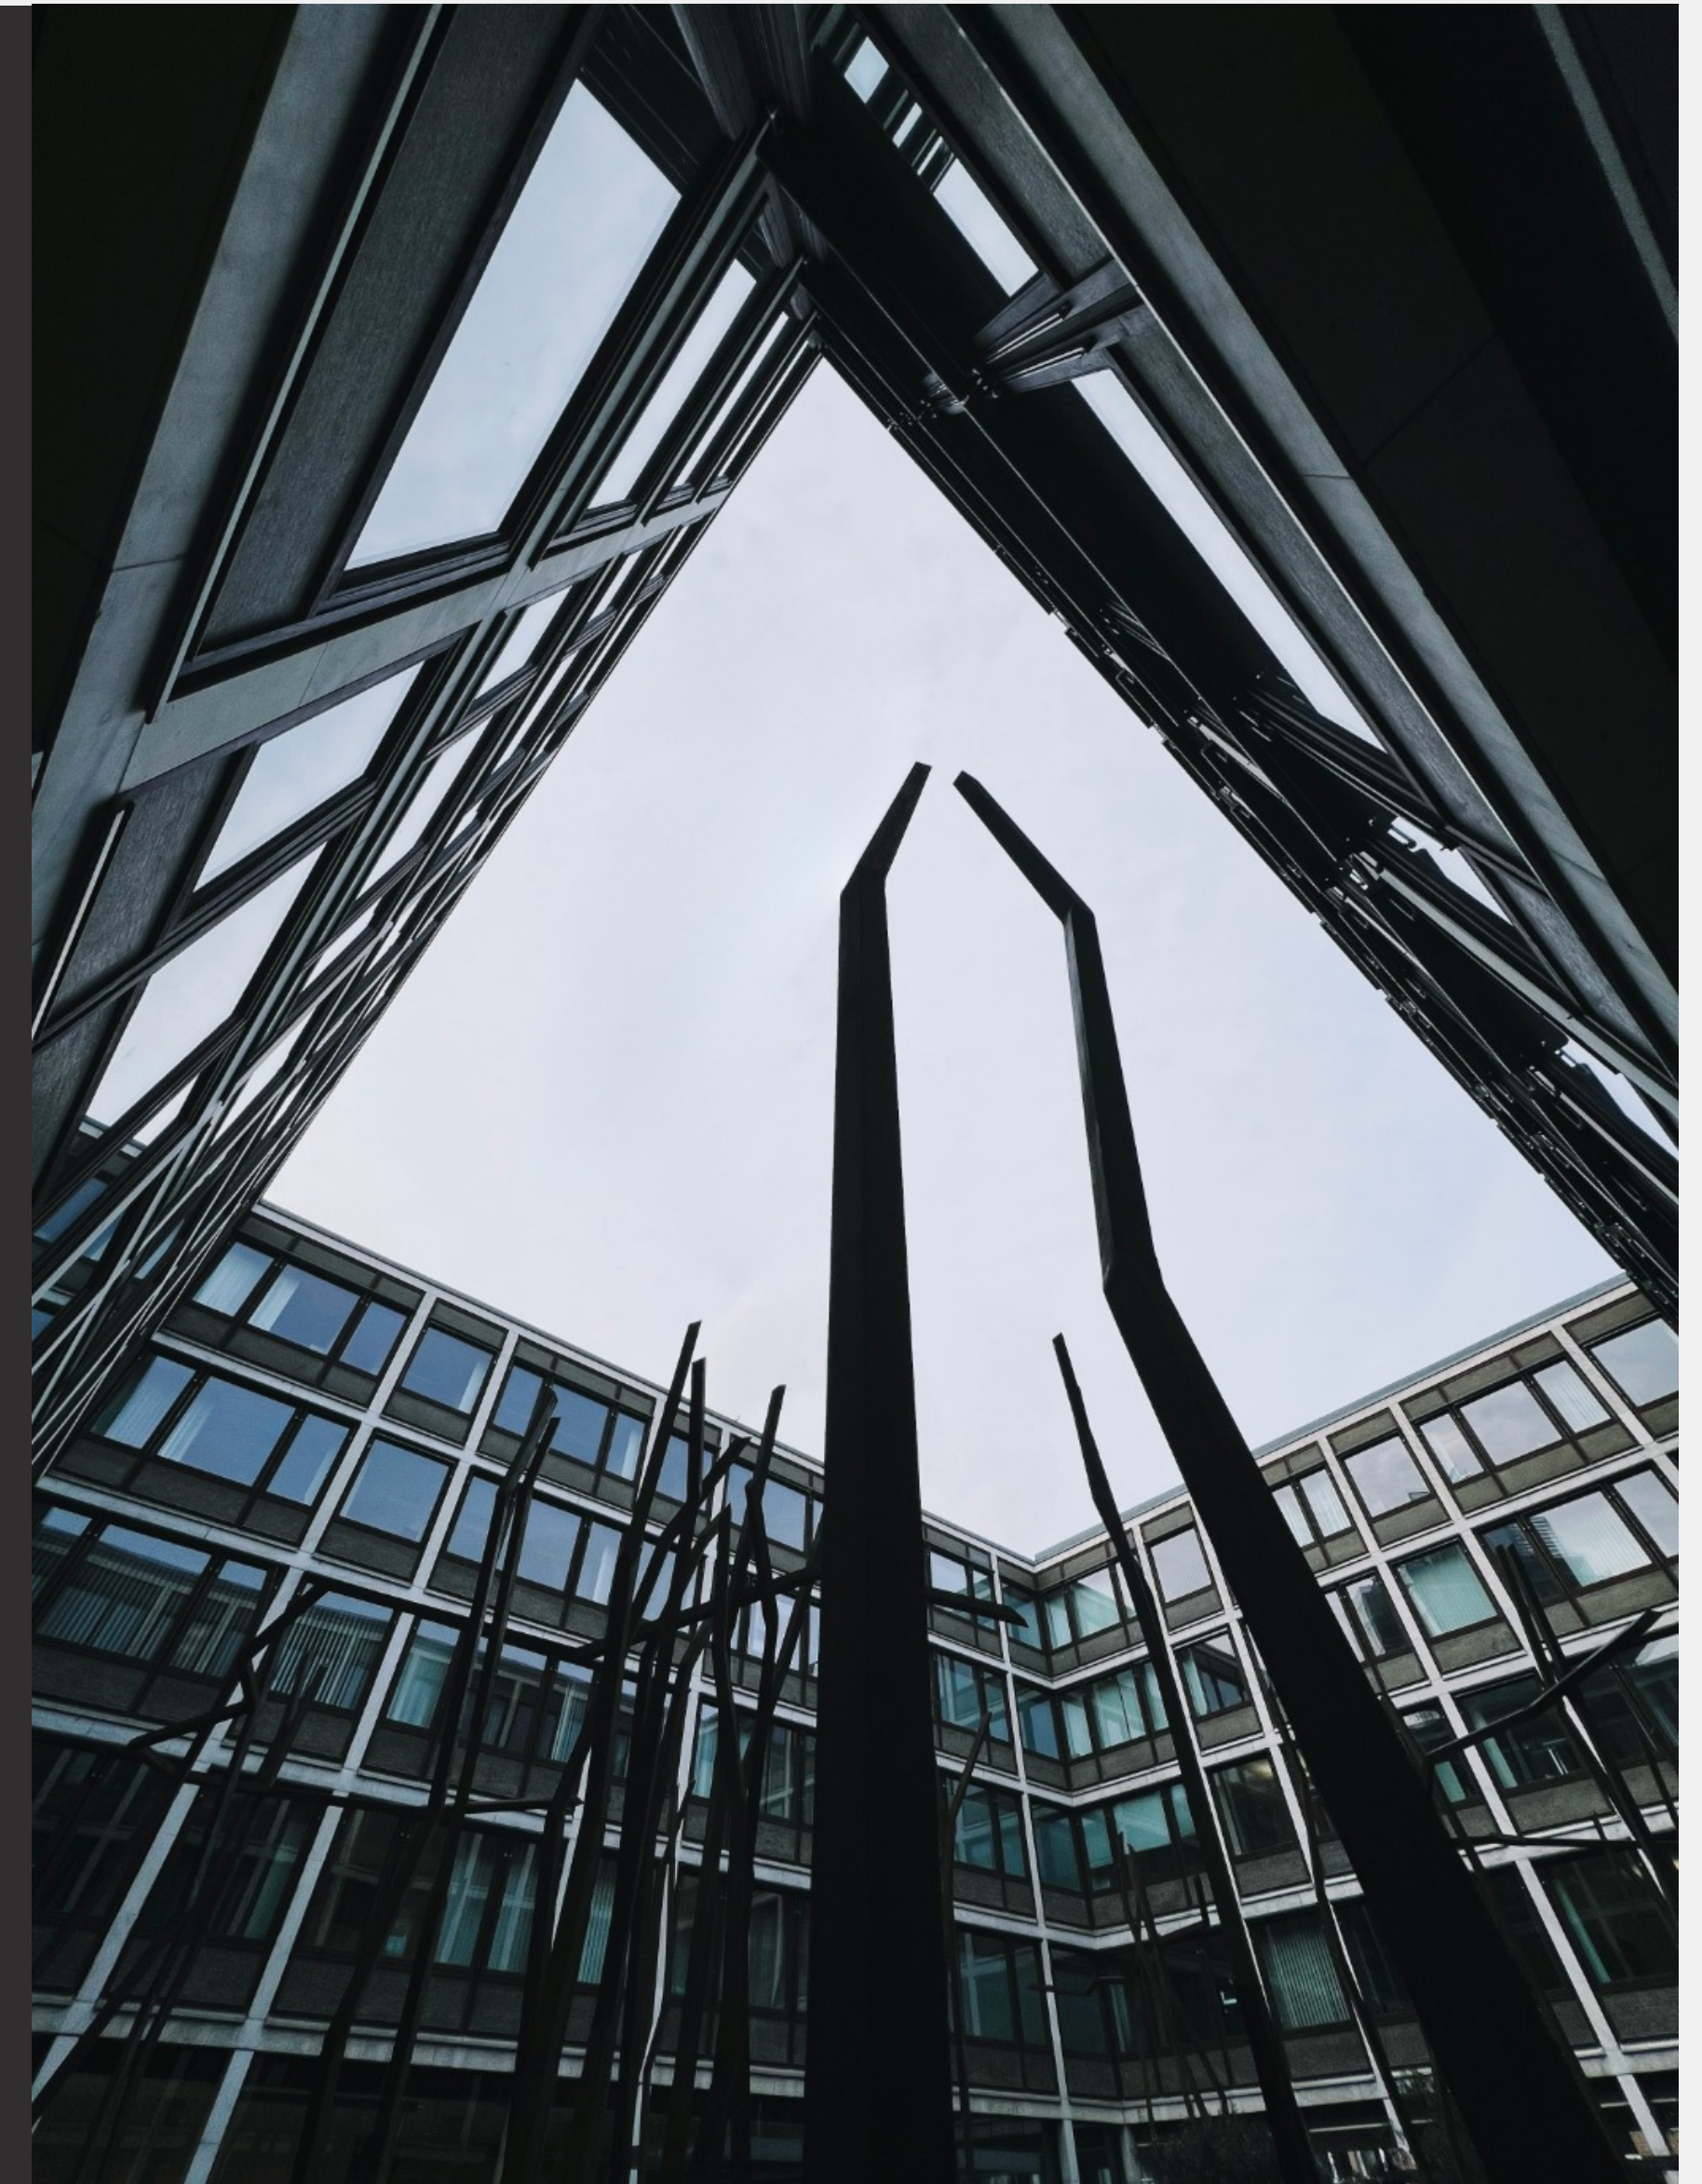

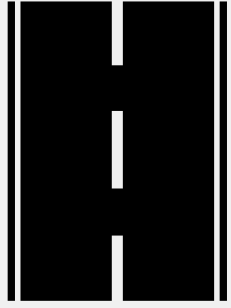

# Engineering Expertise

It offers facade installation solutions supported by advanced engineering technical support, which is mainly based on specialized European engineering expertise.

Our technical support is provided by a specialized engineering office in Germany, where technical studies are supported and technically reviewed in accordance with advanced engineering methodologies and internationally recognized standards, reflecting the depth of German expertise in facade systems and specialized construction solutions.

This technical support is essential for ensuring the reliability of studies, the readiness of solutions for implementation, mitigating technical risks in projects with high technical requirements, and ultimately achieving high levels of implementation efficiency.

# Managing Complexity with Confidence

Our construction management services are built around the principle of accountability.

From early planning stages to final handover, we support coordination and execution to ensure aligned goals and smooth project delivery.

We apply structured methodologies, risk management practices, and reporting tools to keep projects on track, on time, and within agreed requirements.

We don't just  
manage construction  
we orchestrate every  
moving part  
with precision.

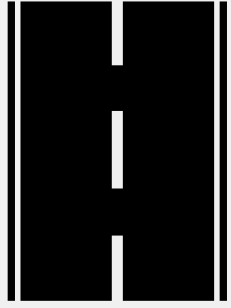

# Quality Policy

Horizon Integration is fully committed to a quality policy which ensures delivery of its products and services defect-free and on time.

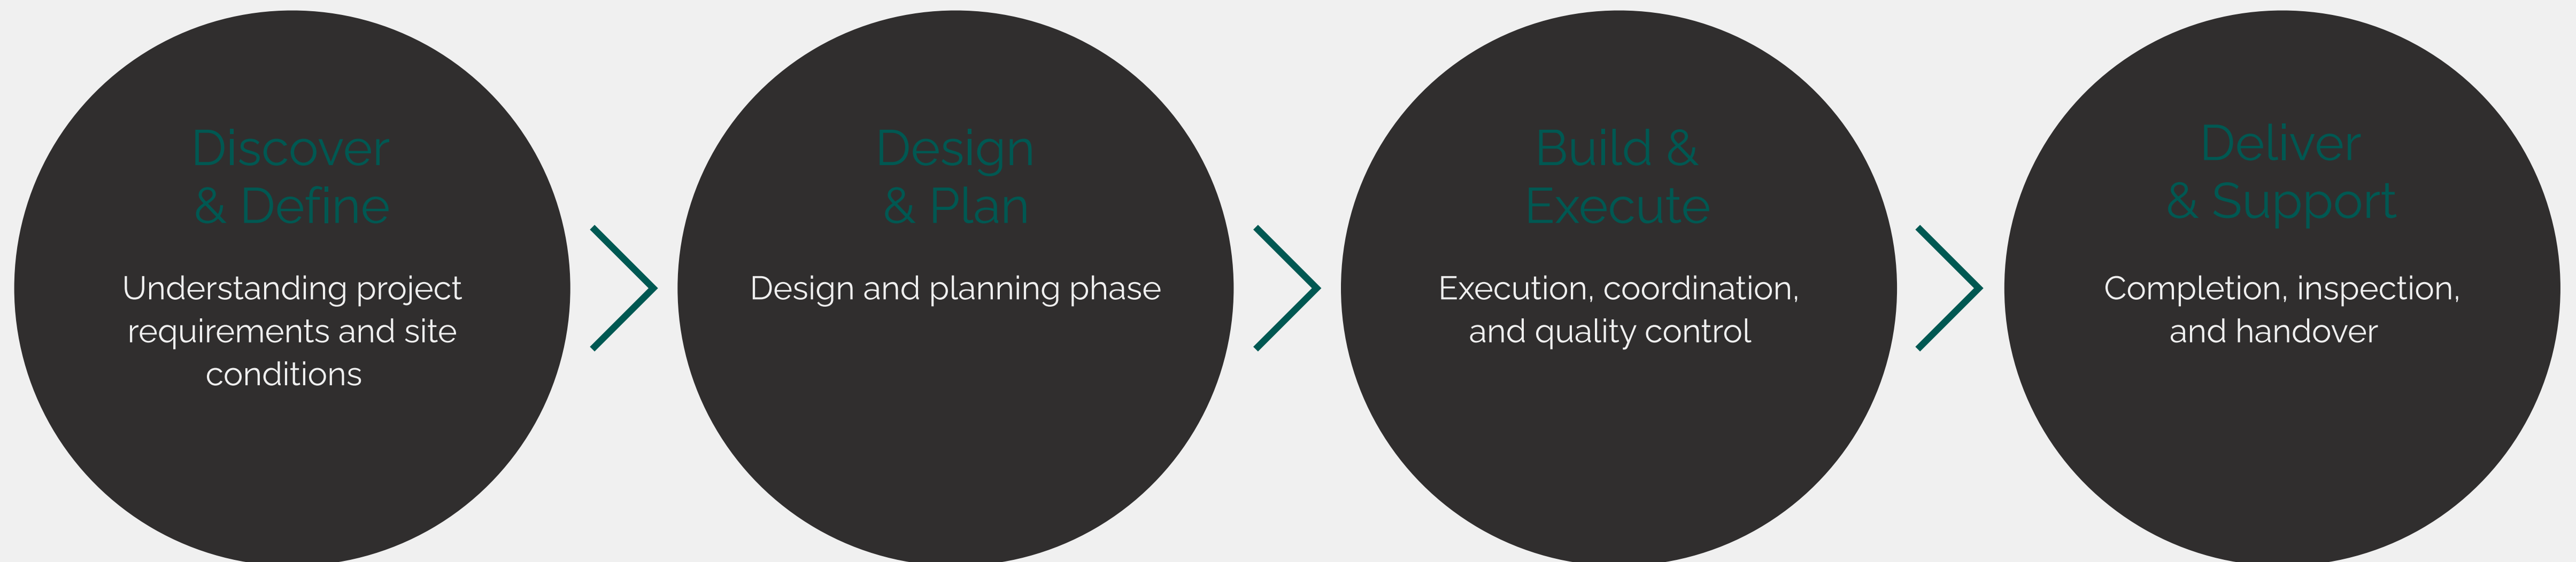

The company provides quality management, coordination, installation and support services across the Kingdom of Saudi Arabia.

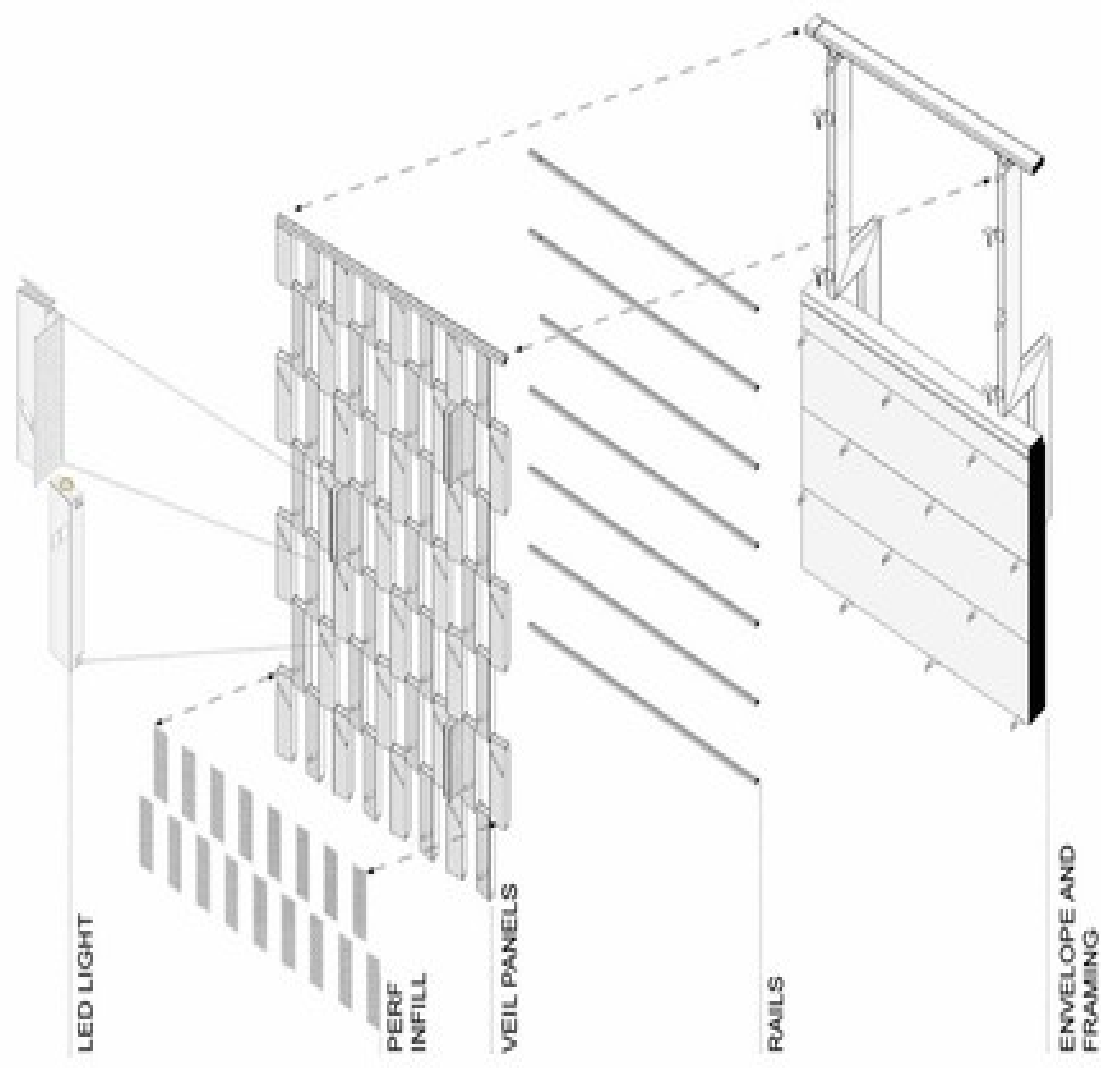

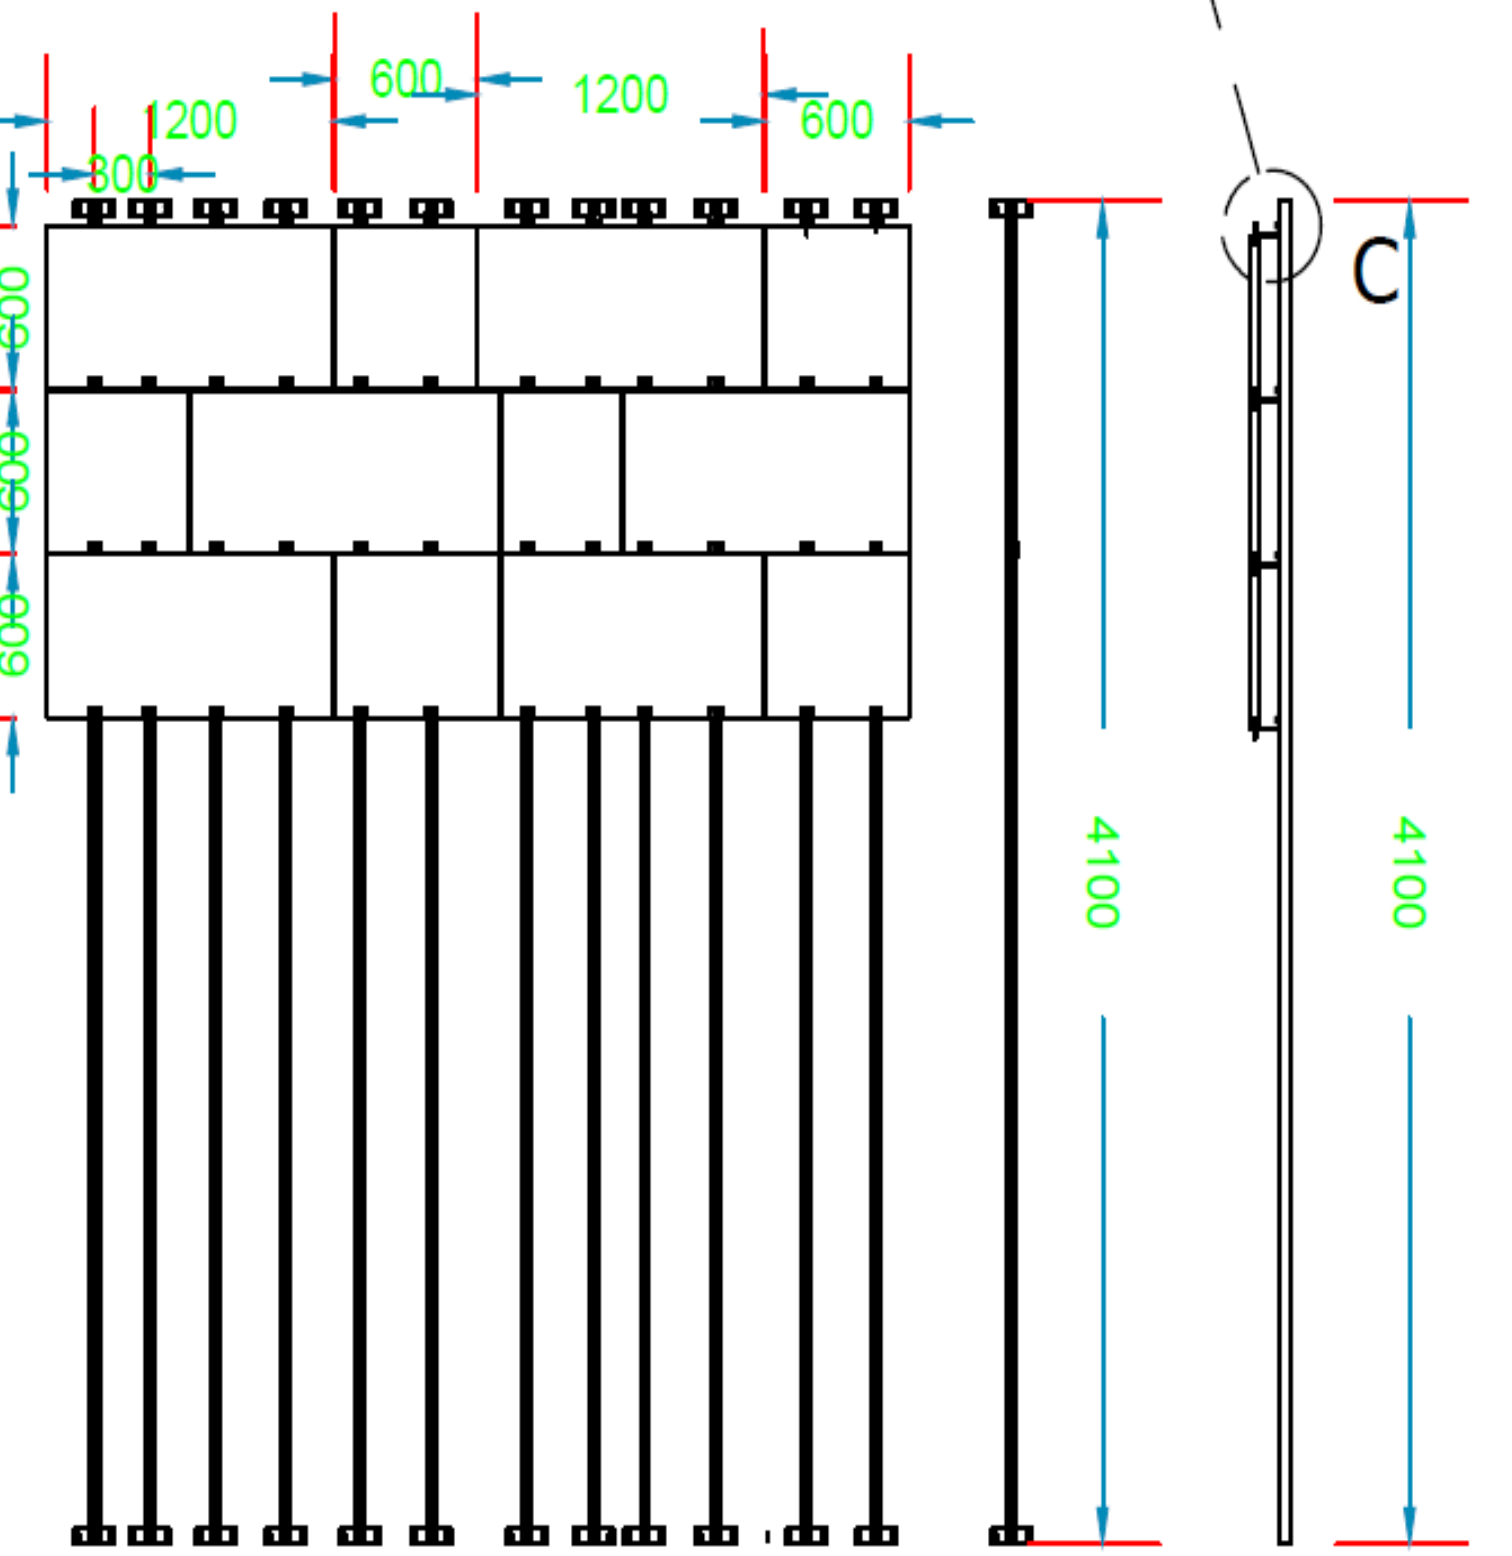

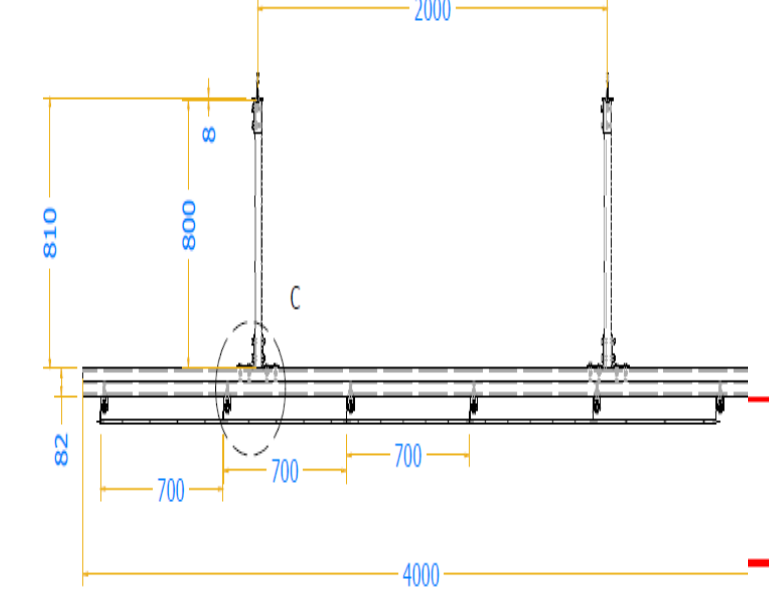

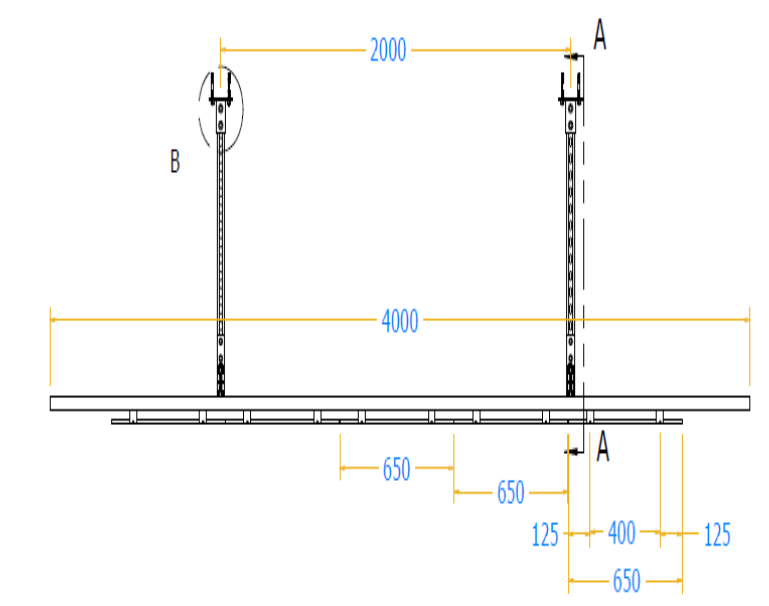

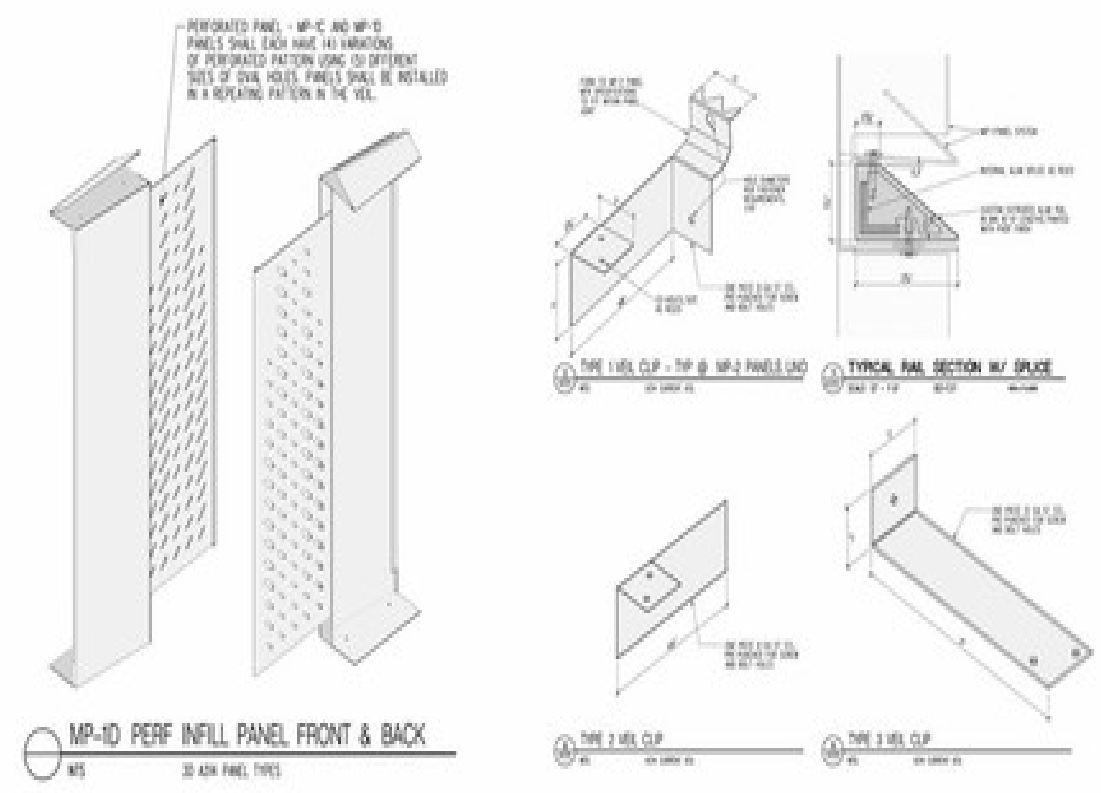

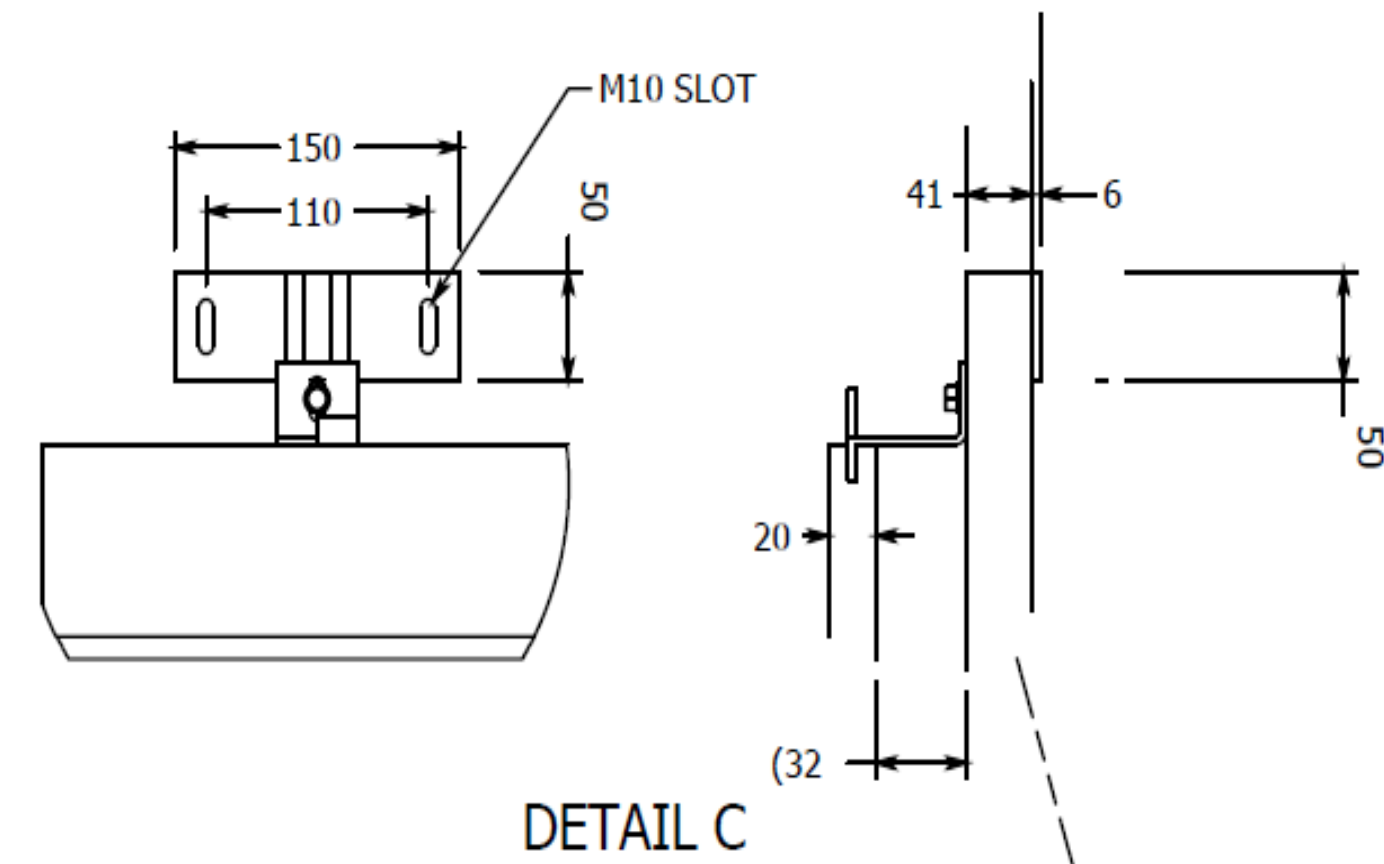

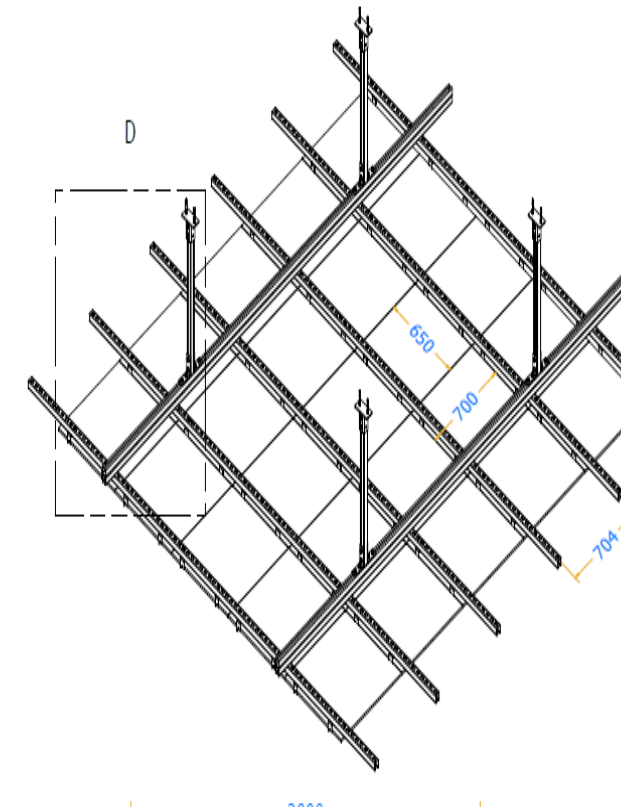

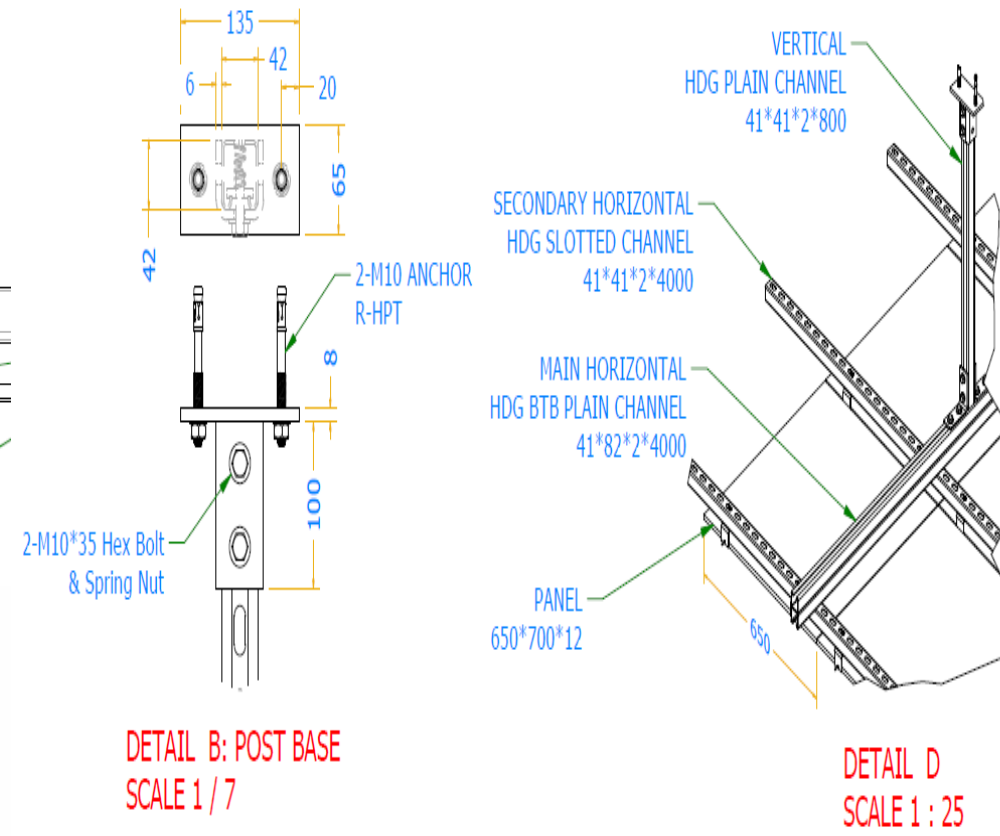

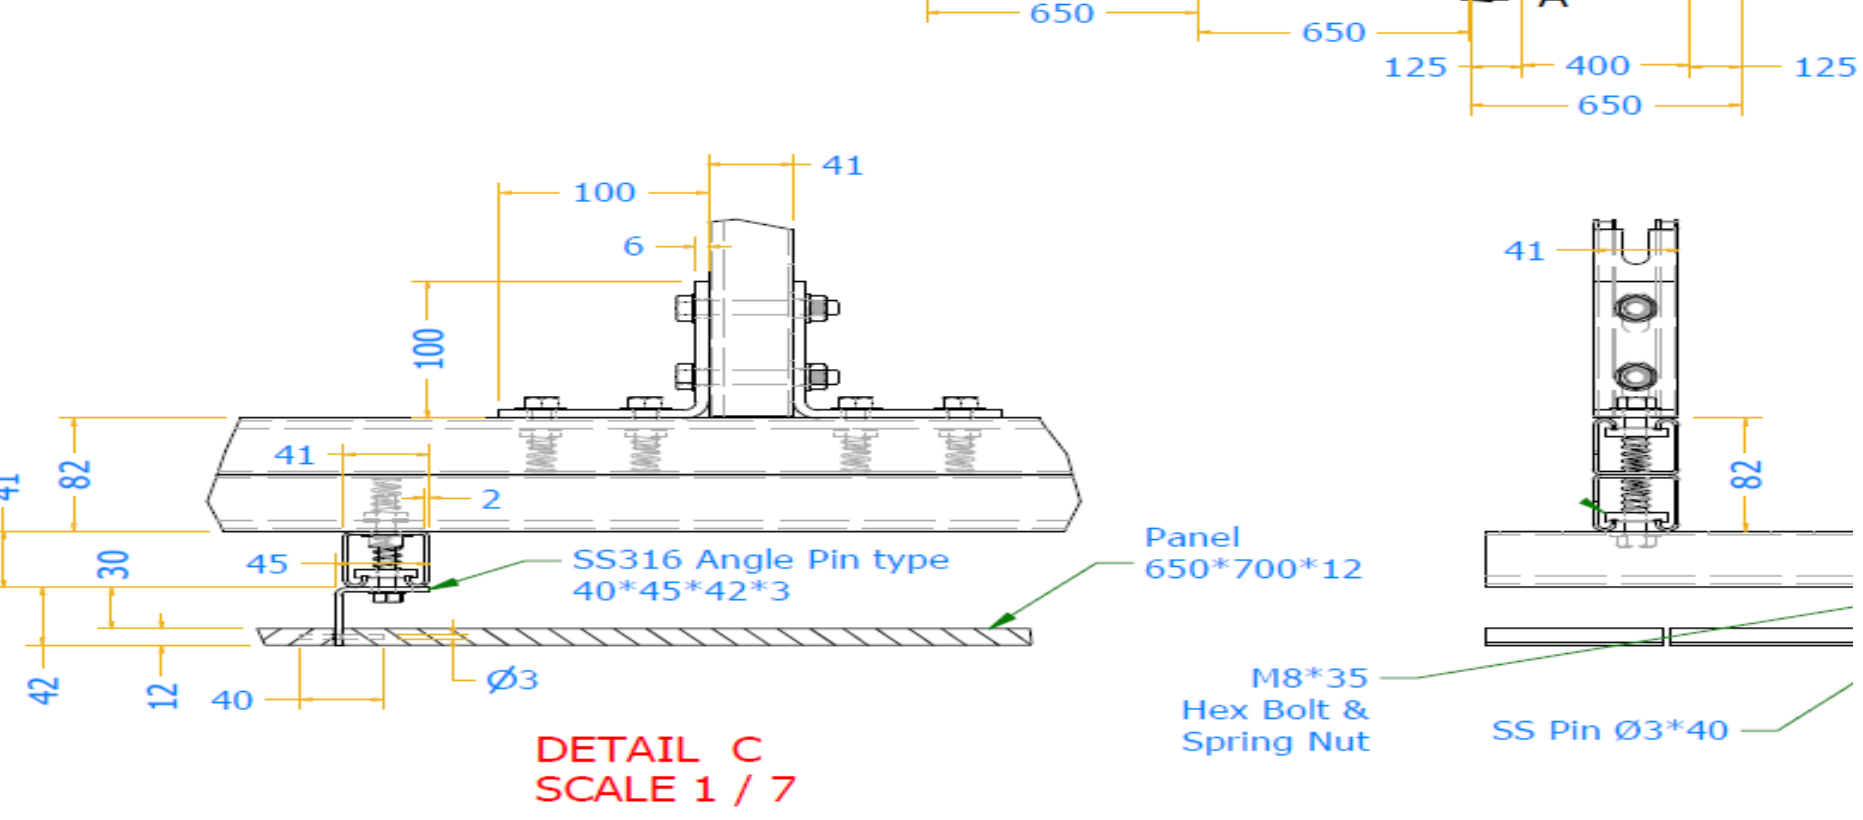

Responsibility for quality lies with all employees and is supported by continuous review of the Quality Management System to ensure continual improvement and compliance with ISO 9001:2015 requirements.

# From Vision to Completion

Our streamlined four-step process ensures clarity, control, and quality at every stage.
